

Payment Methods

For Donor Portals powered by fundstakPRO Social

<http://fundstakpro.com/social>

Overview

- ▶ fundstakPRO is a fundraising engine that powers online fundraising portals
- ▶ fundstakPRO customers can choose to have all of the raised funds coming to them directly into their bank accounts
- ▶ In this presentation we have highlighted the types of payment methods that fundstakPRO can make available to their donor community

Online vs offline payments

Online	Offline
Credit Cards, Debit Cards, eWallets such as PayPal, Dwolla, Alipay	Bank Deposits and Bank Wires, Mobile Payments, Check and Cash Pickup
The transaction occurs online and funds are received at your end instantly	The transactions occurs outside your website and it is up to the to donor when they make the payment
No need to verify the transaction	You will have to verify the transaction by accessing your bank or mobile account statement, confirmation from logistics partner.

Online Payments

Flow and payment gateways that have been integrated already with
fundstakPRO

Process for online payments

Pledge

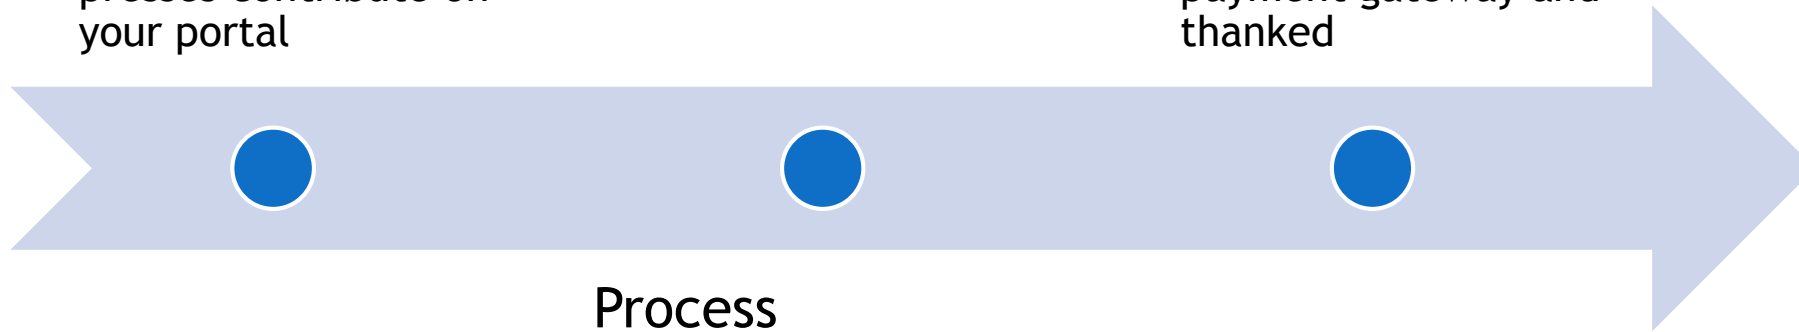

- Donor finalizes amount to donate and presses contribute on your portal

Success or Failure

- Donor is brought back to your portal by the payment gateway and thanked

Process

- Donor is taken to the payment gateway where the transaction is processed

Already compatible payment gateways

wepay

<https://wepay.com/>

stripe

<https://stripe.com/>

PayPal

<https://www.paypal.com>

easypay

<http://www.easypaisa.com.pk/>

CyberSource® VISA

<http://www.cybersource.com/>

fundstakPRO

“

We will integrate your preferred payment gateway with your donor portal

”

We are already compatible with the major payment gateways globally. This means that we can have your portal up and running in no time if you decide to choose the platforms on the next page.

We do this for every new fundstakPRO customer. You will however have to register as a merchant with the payment gateway provider.

Offline Payments

Bank deposits and wires, mobile payments and cash / check pickups

Flow for bank deposits and wires

Pledge

- Donor finalizes amount and selects a bank that he or she can pay into

Verify

- Donor logs onto your portal and verifies the donation by entering a tracking number

Deposit / Wire

- Donor deposits or wires the money by physically visiting your bank or via the Internet

Approve / Reject

- Your finance users are alerted who then track the donation and can edit, approve or reject

Flow for cash / check pickup

Pledge

- Donor finalizes amount, gives address, date and time for pickup

Success or Failure

- Your logistics partner or relevant team logs into their control panel and can edit, confirm or reject the pledge

Pickup

- Your logistics partner or relevant team is notified who visit the donor and pickup the cash or check

Flow for bank mobile payments

Pledge

- Donor finalizes amount and selects a mobile account that they can pay into

Verify

- Donor logs onto your portal and verifies the donation by entering a tracking number

Payment

- Donor makes the payment via cell phone or by visiting a payment partner or shop

Approve / Reject

- Your finance users are alerted who then track the donation and can edit, approve or reject

Flow for Mobile Payments (OTC & MA)

Pledge

- Donor finalizes amount and presses the contribute button
- Donor is given a tracking number

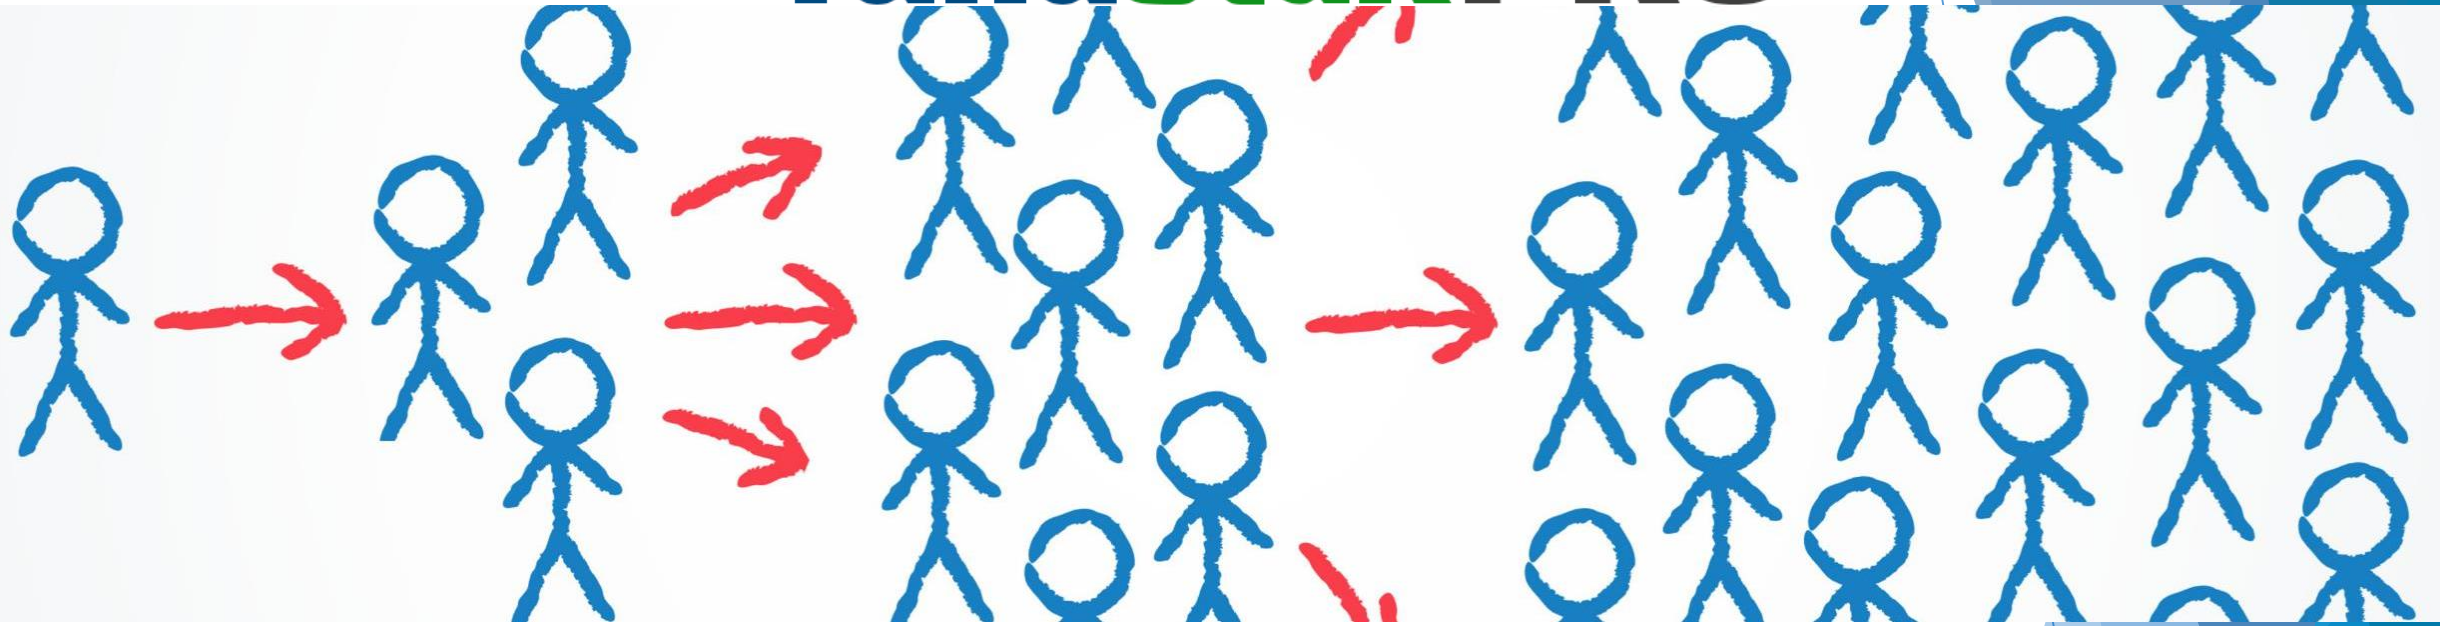

Success or Failure

- Once the payment is made into your mobile account your portal knows automatically
- No need for donor to verify the transaction

Payment

- Donor pays via mobile or by visiting any physical location of the mobile payment partner
